CEASE PRACTICE ORDER

In the Medical Board of California (Board) Case No. D1-2007-181509, the Board issued a Decision adopting a Stipulated Settlement and Disciplinary Order, which became effective January 15, 2015. In the Board's Order, Doctor of Podiatric Medicine License No. E 3494, issued to PARVIZ SERVATJOO, D.P.M., was ordered revoked, revocation stayed and respondent was placed on probation for six years with terms and conditions.

Probationary Condition No. 5, Controlled Substances - Abstain from Use, requires respondent to abstain completely from the personal use or possession of controlled substances as defined in the California Uniform Controlled Substances Act, dangerous drugs as defined by Business and Professions Code section 4022, and any drugs requiring a prescription. This prohibition does not apply to medications lawfully prescribed to respondent by another practitioner for a bona fide illness or condition.

Within 15 calendar days of receiving any lawfully prescribed medications, respondent shall notify the Board or its designee of the: issuing practitioner's name, address, and telephone number; medication name, strength; and quantity; and issuing pharmacy name, address, and telephone number.

If respondent has a confirmed positive biological fluid test for any substances (whether or not legally prescribed) and has not reported the use to the Board or its designee, respondent shall receive a notification from the Board or its designee to immediately cease the practice of podiatric medicine. The respondent shall not resume the practice of podiatric medicine until final decision on an accusation and/or a petition to revoke probation. An accusation and/or a petition to revoke probation shall be filed by the Board within 15 days of the notification to cease practice. If the respondent requests a hearing on the accusation and/or petition to revoke probation, the Board shall provide the respondent with a hearing within 30 days of the request, unless the respondent stipulates to a later hearing. A decision shall be received from the Administrative Law Judge or Board within 15 days unless good cause can be shown for the delay. The cessation of practice shall not apply to the reduction of the probationary time period.

If the Board does not file an accusation or petition to revoke probation within 15 days of the issuance of the notification to cease practice or does not provide respondent with a hearing within 30 days of such a request, the notification to cease practice shall be dissolved.

The respondent has failed to obey Probationary Condition No. 5 as ordered in the above Decision, by testing positive on a sample test. Accordingly, respondent, PARVIZ SERVATJOO, D.P.M., is immediately prohibited from engaging in the practice of podiatric medicine. The respondent shall not resume the practice of podiatric medicine until a final decision has been issued on an accusation and/or a petition to revoke probation filed pursuant to this matter.

IT IS SO ORDERED April 28, 2015.
